The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/007,136	Applicant(s) ALEXANDER ET AL.	
	Examiner Tung Vo	Art Unit 2621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-2, 4-22, 24-39, and 41-56 are rejected under 35 U.S.C. 102(e) as being anticipated by Olson (US 7,023,469) as set forth in the Office Action dated 01/31/2008.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2, 23, and 40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Olson (US 7,023,469) as set forth in the Office Action dated 01/31/2008.

Response to Arguments

5. Applicant's arguments filed 06/30/2008 have been fully considered but they are not persuasive.

The applicant argues that Olson does not teach a system for storing image data that appears in a processing zone to a mass storage only if a significant change is determined and excluding image data in the same or different processing zone from being stored to the mass storage if no significant change has been determined in the remarks.

The examiner respectfully disagrees with the applicant. It is submitted that Olson teaches the processor (27 of fig. 1) processes two images (figs. 5 and 6) for comparison, based on the comparison the processing section (27 of fig. 1) saves the selected image or image portion of the detected object in a memory (e.g. 34 of fig. 1), the detected object is detected base on the motion change within the images (figs. 5 and 6), so this suggests storing image data that appears in a processing zone to a mass storage only if a significant change is determined (col. 6, lines 38-57); the processing section (27) does not save each of the numerous images of the person 86 which are obtained while the person walks down the hallway (fig.6), this suggests that the image data in the same or different processing zone (fig. 5) is excluded when there is no significant change is determined (col. 6, lines 21-23). In view of the discussion above, Olson clearly anticipates the claimed invention.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
